Steve, we did a call with Anand and Jeet this morning. Oplia is pulling the regulator country data to hand off to them and CBER/CDER to contextualize. We also gave them related background (b)(5)
(b)(5) I'm grateful they are leading on the follow up of this assignment given the concurrent policy priority work OPLIA is going full steam on. We will continue to advise and comment on what they produce as options accordingly, but really glad they are leading given the clinical significance of this discussion. (b)(5)
